***Response to Amendment***

1. This action is responsive to amendments and REMAEKS received on 12/4/2008.  
The amended claims entered as requested.

***Response to Arguments***

2. Applicant's arguments with respect to claim 1 have been fully considered and are persuasive. Applicant's argument that the cited art, Ha (US 7,136,353) and Galand (US 6,424,624), taken alone or in combination, fails to disclose the amended subject matter of receiving congestion feedback data from acknowledgment packets and then adjusting both window limit and rate limit using the acknowledgment packets to determine which of a window limit and a rate limit are causing congestion.

***Allowable Subject Matter***

3. Claims 1-20 are allowed based.

As discussed in the 'Response to Argument' and after further search, Examiner concludes that closest cited art, Ha (US 7,136,353) and Galand (US 6,424,624), taken alone or in combination, fails to disclose the amended subject matter of receiving congestion feedback data from acknowledgment packets and then adjusting both window limit and rate limit using the acknowledgment packets to determine which of a window limit and a rate limit are causing congestion.

***Conclusion***
